

# Adam's Hats

## Get Away Breaks...

Adam's Hats Fund has access to a number of short break holiday properties managed by Holiday Property Bond (HPB)

These properties are self-catering flats and individual cottages, and can accommodate families of almost any size in beautiful locations throughout the UK.

Adam's Hats makes arrangements with the local community teams and local cancer treatment centres at each location to provide medical support as needed, for the child undergoing their regular treatment.

This is done through the Social Worker at your cancer treatment centre, who ensures that the appropriate communications are made between your own medical team and those at the holiday location. We hope that this enables families to spend time together in those precious moments during and after treatment, when the patient is able to relax away from the routine and demands of hospital, whilst being secure in the knowledge that if help is required, it is on hand and that everyone concerned is fully informed of the child's needs.

**Adam's Hats covers the full cost of the accommodation for 2 to 5 nights for groups of up to 6 people.**

We provide a starter pack of groceries and information about local facilities, restaurants, transport, etc. On a discretionary basis in consultation with the medical team, we can cover the cost to and from the property, and a travel allowance whilst there. We can also provide a per day grocery allowance.

## “BigSea, BigSky”

Langton House,  
Isle of Purbeck,  
Dorset

Sibton Park, Kent
